

I do not wish to take advantage of the Advising Services offered by the College of Southern Idaho. By not utilizing these available services I understand that I am taking full responsibility for proper advising regarding the courses for which I am registering.

I understand and agree that:

- s CSI cannot be held responsible if the courses for which I am registering do not meet the requirements for my declared or intended major.
- s Taking courses which are not required for my major may delay my expected graduation or completion date.
- s Taking courses which are not required for my major has the potential to negatively impact my Financial Aid and/or VA benefits.
- s It is my responsibility to be aware that some courses have required prerequisites, to know what they are, and to meet them.
- s Courses whose numbers are less than 100 are considered to be developmental in nature (i.e. MATH 009, ENGL 011, READ 031, etc.). These do not count towards the requirements needed for my major at CSI, but may be required if my math and/or English skills are low.
- s It is always my responsibility to ensure that the courses for which I register will transfer to the school or institution to which I plan to transfer in the future.
