Educator Internship Evaluation Survey: Faculty Participant

Please reflect on your Internship experience and address the following questions:

1. Did you set goals prior to the internship? If so, describe how they were met.
2. What did you *do*? With whom did you work? What skills did you apply? Was there a good match between your work assignments and your areas of expertise?
3. What did you learn? Include information you learned about yourself, about the workplace, about the skills, knowledge & attitude necessary to work in this field.
4. Describe at least three things you learned about the correlation between classroom learning (the learning environment) and worksite performance.
5. How did you translate your internship experiences into changes in the classroom (learning environment) that reflect 'real-life' situations in the workplace?
6. What would you do differently next time? Do you have suggestions for future internship programs for educators?
7. What future training or follow-up activities do you need to support your learning from the faculty internship?
