

THE COLLEGE OF SOUTHERN IDAHO 1945-1985:
THE DEVELOPMENT OF THE INSTITUTION

James R. Gentry

Twin Falls, Idaho

ACKNOWLEDGEMENTS

This work has three parts: a short history, a selected chronology, and some selected data. In the selected chronology most dates give the day of occurrence, but some give the date of announcement in the newspaper. In parentheses following each event is the source of information. Much credit for selected data is due Karl Black, Bob McManaman, and Stephen Poppino.

Many other people have helped. Library Director William Beale first suggested the value of historical research for the twentieth anniversary of the college. The Academic Dean's office staff has done much of the hard labor by clipping articles which related to the College of Southern Idaho from local newspapers. Thanks are particularly due to Irene Courtwright and to Barbara Perkins for their technical assistance.
