MINUTES OF December 15, 1997 were approved as written on
MOTION by Bill Babcock. Affirmative vote was unanimous.

TREASURERS REPORT: Acceptance of the Treasurer's report was
approved on MOTION by Dr. Charles Lehrman. Affirmative vote
was unanimous.

PRESIDENT'S REPORT:

1. Jim Dawson reported on the grade point averages of the
athletes for the fall of 1997. He thanked the faculty for
their assistance in returning athletic status reports to
him. He also reported that the daily study halls and
tutoring were improving the athletes grades.

The following team grade point averages were reported:
men's basketball - 2.34, women's basketball - 3.36, baseball
- 2.94, men's cross county - 2.67, women's cross country -
3.12, women's rodeo - 2.83 and men's rodeo - 3.5.

2. Jim Vining reported on the operations of Trans IV. He noted that they have over 145,000 boardings per year and run approximately 17 busses.

Due to reduced federal funding allocations from the Idaho State Department of Transportation, Trans IV is faced with reducing services to remain solvent. Part of the reduction is due to the state deciding to allocate federal dollars to regions based upon population. The allocation for this region is split between Trans IV of Twin Falls and Kart of Sun Valley. Trans IV receives 57.5% of the Region IV allocation and Kart receives 42.5%. This split is not based upon population but upon criteria set up by the Idaho State Department of Transportation.

Efforts to get this allocation changed have been unsuccessful. The basic issue is that Trans IV charges fees to haul the low income, disabled and elderly while Kart receives approximately \$66,000 that it utilizes to transport Sun Valley skiers for free.

As a one year fix, the Idaho State Department of Transportation is attempting to reallocate \$79,000 of inter-city transportation funds to Trans IV. We should know the outcome of this attempt within a month.

The President and Board supported Trans IV in its efforts to receive adequate federal funding for its operations. The Board asked Jim Vining for a listing of contributions from cities and counties.

Jim Vining thanked the Board for its support and expressed his appreciation for everything the College does for Trans IV.

3. Bill Studebaker presented the initial plans for an outdoor club. Graydon Stanley indicated that the Student Senate agreed to provide \$8,000 this year for the club and that the students would support a fee increase to fund the club.

The President advised the Board that we would put together a full implementation plan for the club and bring it back to them for approval. The Board approved the concept and directed the administration to proceed with the plans for the club.

4. Ron Shopbell, Mike Glenn and Jerry Beck reported on spring semester enrollment as of the end of the first week of school.

5. The President reported that on next Thursday he would present to the Senate Education Committee and also have a luncheon with our students, the Joint Finance Appropriations

MINI-CASSIA OPERATION COST ANALYSIS

The following estimate of the cost of operation in the Mini-Cassia area has been developed for your review:

COSTS

Salaries:	\$ 19,270
Fringe:	6,220
Maintenance: @ \$.15/mi. 3,000 mi/mo.	5,400
Fuel: @ 4.5 mi./gal. & \$1.35/gal	10,800
Admin: @ \$.66/boarding system wide	<u>5,000</u>
<u>TOTAL</u>	\$46,690

The above figures do not consider the absolute need for a new bus in this service area with an estimated depreciation of \$10,800 per year.

INCOME

City of Burley:	\$ 2,500
City of Heyburn:	800
Fares & rider income:	10,200
FTA: @ \$.81/boarding system wide	<u>6,136</u>
<u>TOTAL</u>	\$19,636

Income figures includes an FTA allotment broken out by boarding. However, these grant moneys will be unaffected by any decrease in boardings or route closures.

By operating this route we are losing approximately \$27,054 per year. This value is increased to \$37,854 per year when the replacement vehicle arrives. In addition, without this route, an additional \$6,136 would be available to our other services throughout Region IV.

Numbers are based upon 1998 funding allotments from the Idaho Transportation Department. Our 1998 planned reduction in funding from this source is \$43,690 below 1997 funding levels.

At the current time, other routes and services within our system are used to support the extra costs of this service.
