What a year! We have been able to reflect on many important issues that have had huge effects on many of us personally. We have watched the fluctuations of the markets causing us to wonder if we were going to see 2008 over again only to end the year with a record high for the Foundation. What a wonderful organization to be a part of when our job is to make sure we spend enough money to meet the needs of the students at the College of Southern Idaho.

The College of Southern Idaho Foundation’s success would not be possible without the many individuals who have graciously donated over the past 37 years. I have been able to serve in several of the economic development organizations of the Magic Valley and many of the companies we have brought into this area have benefited from the courses offered through the College. It is through this cycle of business development that we are able to create new jobs that inspire innovative course development and areas of study for the College.

As we see the many changes in the economy and the world, we have also seen the changes in the challenges for education. Career Technical Education programs are seeing a large demand and that is a boost to the programs that the College of Southern Idaho already has in place. In addition to the College being able to serve the many students in the Magic Valley area, this is providing out of area recruiting opportunities, which is helping with the growth of the student base of the College. It is the students that this Foundation is all about.

It is a great honor to be able to serve with many great community leaders on the Board of Directors of the College of Southern Idaho Foundation. They have all been supportive as we again make a change in the leadership of the director. We were sad to have to say goodbye to Brandi Turnipseed and look forward to being able to work with Erika Allen as she brings many years of experience and leadership to the Executive Director position. It is also with great appreciation to Deb Wilson who gratefully came out of retirement to assist the Foundation during this transitional time.

Changes, epidemic, and political challenges have all been heavy on our minds this past year. Yet because of the support and donations that have been made to the foundation we have had continued growth in the assets of the Foundation. This growth has allowed us to distribute over $2 million dollars in scholarships to the students at the College of Southern Idaho.

Thank you again for all your support and faith in the Foundation and the College of Southern Idaho.

Sincerely

Dan Lloyd
CSI Foundation President
Dear College of Southern Idaho Supporter:

Last year, as the 2020-2021 academic year began, I invited the College community to lean into hope. Certainly the 2020-2021 academic year had its share of challenges, but the College of Southern Idaho fared well – exceptionally well. Your college did well and did indeed radiate its hope and success throughout the region.

Despite the headwinds, the College’s enrollment remained essentially the same as the prior year, and we posted a record Summer 2021 enrollment. Fall 2021 is on track for growth, and our success metrics remained constant or improved. This past year has been like no other, with a worldwide pandemic altering the way we live, teach and learn. To say that is has been difficult for all of us is an understatement. Nonetheless, it was important that the College lean into hope, since we provide the opportunities for our students to be transformed by the power of education. We enrich our communities through services and support the economic development of the region. CSI indeed has been a radiant and resilient force within the Magic Valley, and beyond.

Through these extraordinarily challenging circumstances, our commitment to student success has never wavered. Every day, the College of Southern Idaho continues to provide access to invaluable and transformative education. We did not allow the pandemic to define us, and kept focused on our mission to educate and serve.

Indeed, there are many accomplishments to celebrate. For fiscal year 2020-2021, through your support for the resources needed by our students, the College Foundation provided nearly $2.4 million in scholarship and program support to the College and its students. On behalf of those thousands of students that your support positively impacted, thank you.

As we look ahead in these uncertain times, ensuring access to education has never been more rewarding, challenging and critical. The success of our students and our community today, and in the future, depends on those who support our mission to change lives and enhance the quality of life in our region. Thank you for supporting the College of Southern Idaho Foundation and making education for all possible.

Your commitment to support education, enrichment and opportunity assists the College in its work. Again, thank you for being an agent of radiance, resourcefulness, and resilience.

Go Eagles!

Dr. L. Dean Fisher
President
The CSI Foundation hosted a Mini-Cassia dinner for donors and community partners in the summer of 2021. We look forward to hosting a dinner in Jerome in 2022. Please contact the CSI Foundation for more information about future community events.

Thank you to those who attended the President's Gala in October 2021! Another President's Gala will be hosted in March 2022 where we will recognize new endowments established to support students at CSI.
CSI Foundation Welcomes New Executive Director

The College of Southern Idaho Foundation recently announced that Erika Allen has taken over as its new Executive Director. Allen assumed the position on August 31, and has been working with former Executive Director Deb Wilson during the transition.

Allen is currently working on her doctorate in Higher Education Administration at Idaho State University and has completed a master’s degree in Leadership & Management with a concentration in Non-Profit Management from the University of La Verne.

Allen served as the Director of College Advancement and the Executive Director of the Foundation at Lewis-Clark State College for the last six years. With over 20 years of non-profit experience, Allen brings with her the necessary skills and vision to provide quality service to donors and students at the College of Southern Idaho.

Allen has been recognized for her work and influence in many ways, including being selected to participate in the American Association for State Colleges and Universities’ (AASCU) Millennium Leadership Initiative, along with being selected as a UCLA Women for Change award recipient, the Lewis-Clark State College Employee of the Year, and receiving the Cal Poly Pomona STAR Award.

The College of Southern Idaho Foundation looks forward to a new era under the leadership of Allen. With assets totaling more than $50 million, the CSI Foundation has been recognized as one of the top community college foundations in the country.

CSI Foundation Welcomes New Assistant Director

Karrie Van Noy (formally Karrie Hornbacher) has been employed with the College of Southern Idaho (CSI) for sixteen years. Van Noy previously served as the Early College Senior Coordinator with nine years of experience in CSI’s Dual Credit Early College program. Karrie has led collaborations with internal and external partners to coordinate and promote college offerings. Prior to this role, Van Noy worked in the Financial Aid Office as an advisor, guiding the work-study program, and assisting students with identifying financial aid eligibility. An alumna of the College of Southern Idaho, Van Noy holds hospitality and liberal arts degrees from CSI and a bachelor’s degree through Idaho State University. Karrie grew up on a pig farm in Gooding, Idaho. She enjoys camping, bike rides, petting all animals, and spending time with family.

Karrie will be leading alumni programming, employee giving, the emergency assistance scholarship program, and other scholarship programs supporting the CSI student body.

OVER $2 MILLION AWARDED IN SCHOLARSHIPS
Thank You CSI Foundation Community Donors

Your donations make a significant difference to a CSI Student. When you give the gift of a scholarship, you are not only supporting our students financially but also changing the future for the students and their entire families. The generous donations acknowledged in this report were made between July 1, 2020 and June 30, 2021. Thank you for making the choice to help our CSI Eagles in the past.

Stay Near, Go Far! At the College of Southern Idaho Jerome Center

The College of Southern Idaho Jerome Center was established in 2005 at the facility formerly known as First Security Bank. The Jerome Center began offering General Education Development (GED) and English as a Second Language (ESL) courses, and in 2018, expanded by offering academic and technical courses, community education, college and career readiness, active aging programming, dual credit, and student services operations. As part of the community college taxing district, the Jerome Center proudly continues to rapidly grow into a comprehensive off-campus center to meet the needs of Jerome County and surrounding communities.

Since the 2018-2019 academic year, 301 Jerome County students have graduated with conferred degrees and certificates in the following areas: Bachelor of Applied Science, Associate of Arts, Associate of Science, Associate of Applied Science, Associate of Engineering, Intermediate Technical Certificate, Academic Certificate, and Basic Technical Certificate. Our local graduates’ successes represent the shared commitment between the Jerome Center and the CSI Foundation in delivering an equitable, quality, and innovative student experience—in part—through the generous support of community donors. We look forward to many more accomplishments alongside our local students who Stay Near, Go Far! with their continued studies and career endeavors!
Exeter Family Scholarship

The Exeter Family Scholarship was originally established in 2008 by James L Exeter in memory of his wife Ada May, a Registered Nurse who delighted in caring for others. It was created to honor a life well-lived, and to financially assist CSI students realize their dream of becoming Registered Nurses. After James passed in 2016, the Exeter family revised the original scholarship to honor the memory of both James and Ada May Exeter.

James and Ada May were very civic-minded individuals who participated in numerous charitable organizations in their hometown of Blackfoot, Idaho. They were well known as kindhearted individuals who gave freely of their time and talent, and were much loved members of their community. The Exeter family is pleased to be able to continue James and Ada May’s legacy with this Exeter Family Scholarship for Registered Nurses.

Over 60 and Getting Fit

Over 35 years ago, an amazing little CSI exercise class started for older adults at a warehouse in downtown Twin Falls. The numbers were few but the participants and the program grew fast and became strong. Today that program has grown into two separate entities: the Active Aging Program and the Over 60 and Getting fit Program. The Over 60 and Getting Fit class is one the largest classes at CSI as well as across the nation. The two programs are directed by Distinguished Professor of Wellness, Shelly Wright M. Ed. Together both classes enroll approximately 1500 students a semester in a variety of classes located in 11 different towns around the Magic Valley and Wood River Valleys. Class choices are Over 60 and Getting Fit, Yoga, Pilates, Zumba Gold, Fit and Fun, Weight Training and Water Fitness.

The goals of the programs are to encourage the overall well-being of older adults and to promote the possibilities of leading an enriched, independent and productive life as they age. Not only do they exercise hard, but they play hard as well. The students might surprise you in the Student Union Building, local supermarket or even at a basketball game doing a flash mob to one of their favorite Oldies but Goodies songs. You might also find them walking the Fitness Trail grooming it or picking up trash.

Thank you to the CSI board, CSI Administration and employees, the CSI Foundation and the community for all the support you give this amazing program. Our pledge is to continue to grow and provide a safe atmosphere for older adults to blossom.

Peggy Smith: “This class is wonderful! It not only inspires us to improve physically but is a wonderful way to meet new friends who want to do stimulating activities.”

As a full-time student for two years at the College of Southern Idaho (CSI) I have been blessed to have had the privilege of receiving food assistance from ‘Gilbert’s Pantry.’ For the first semester at CSI I was not able to secure a good stable job so I relied on Gilbert’s Pantry quite a lot. I not only received food but I also received other products like soap, toothpaste, feminine products, and deodorant. I would also receive detergent every couple of months. However, what I loved the most was that the food was not just any ordinary boxed food, but rather they had a large variety of products like spaghetti pasta, beans, and rice so I was able to make really great meals. I also wouldn’t just get a small little box, I would get about two boxes full of products so I would have more than a month’s worth of food. Therefore, not only did it save me money but it also saved me time to go to the store to buy these expensive products. Additionally, after the first semester, the pandemic hit and even with school being closed I was still able to receive assistance from Gilbert’s Pantry. So I was never worrying about having enough food or other essential products.

Being a college student and having to pay school supplies, rent, and bills, Gilbert’s Pantry has saved me so much and I know it has saved many others as well as I would often refer it to my friends and other students. Additionally, I can not thank Rosa enough for always looking out for me and letting me know about this food assistance. As well as, the college and all the donors for helping me and many other students have a better life while attending college. Gilbert’s Pantry relieved a lot of stress from me and also is the reason why I was able to survive and overcome my college years.
Thank You CSI Foundation Community Donors

Student Spotlight

CSI Foundation Childcare Scholarship

My name is Miguel Garza-Salgado and I was chosen and honored to give a description of my experience with the assistance from the childcare scholarship. As an older student and proud father of two beautiful girls, the notion of achieving a solid education and trade/career didn’t come later in life till I turned 27 last spring when life took a turn financially, mentally, and emotionally. That impulse strived when I realized that as a single father of two young girls, to maintain a proper life and upbringing for my family was and is a must. I’m a firm believer in role models; reasons being because I had hardly any to none that would steer me in the right direction in my past. Going back to a steady education after almost 10 years is nerve wrecking; so far in my journey of three semesters in the Diesel Technology Program, and other electives, to this day is a challenge. There has been ups and downs. Many falls, to just lift myself up again. My lift just so happens to be my family. Myself and my family, whether they know it or not, will not let these challenges go to waste; the blood, sweat and tears. I do my best to keep that spirit pulsing, I have to. I am proud to say I am in good academic standing at CSI and am grateful for the assistance that CSI and the staff has steered me to financial help with my children. Thank you CSI, and thank you to our donors for the help to people like me and my girls, wanting change, success, and a better life.
The College of Southern Idaho celebrated the newest building on the CSI campus, our new Veterinary Technology Building. A ribbon cutting ceremony was hosted on Friday, September 3, 2021, at the new facility which is located just to the northeast of the CSI Eldon Evans Expo Center off of North College Road.

Our Veterinary Technology program has been successful for years in spite of being housed off campus in less-than-ideal facilities, said CSI President Dean Fisher. It has thrived because of the love for animals that runs deep throughout our communities and because of excellent program leadership. That’s why we are so excited to welcome Veterinary Technology Program Director Dr. Jody Rockett and her students back to campus and to this wonderful new facility.

Veterinary Technology is an American Veterinary Medical Association (AVMA) accredited, professional technical program that gives motivated individuals an opportunity to combine their love of animals with their interest in science and medicine. The program prepares students to work in a variety of veterinary medical related settings. Upon program completion students will be eligible to sit for national examination for licensure. Students must apply and be accepted into CSI before applying to the Veterinary Technology program. Admission begins on January 1st for the Fall Semester. Applications are evaluated on a first-come basis. For more information about the program visit www.csi.edu/programs/veterinary-technology.
CSI Cross Country

The CSI cross country program has a long history of success. Looking back to before the program was reinstated, CSI was named the top junior college cross country program in the nation in 1996 and 1997 because overall its men’s and women’s teams combined to place the highest of any program in the country. Coach Lindsey Anderson was hired in the Fall of 2016 to restart the program after a 19 year hiatus when it was dropped after the 1999-2000 academic year due in part to changes within the region at the time. She begins her fifth year as the head cross country coach for the Golden Eagles. In the past four years the CSI XC teams have never finished lower than 6th at the XC National Championships with their highest finishes being last year at the 2020 NJCAA XC Championships where the men’s team finished 2nd and the women’s team finished 3rd. In at least the past 5 years no other NJCAA Division I program has had both their men’s and women’s team finish in the top 6 every year. While they take great pride in their success athletically, the CSI XC team is also known for their academic success. Every year their team has athletes recognized as Academic All-Americans both individually and as a team. The CSI XC athletes are known for their hard work and dedication academically and throughout the community. They volunteer at different events throughout the year helping out and giving back wherever they can. A lot of credit is due to the incredible young men and women who buy-in to the culture and legacy that has been passed on each year.

Danielle Brow: “Cross country is without a doubt the hardest thing I have ever done, mentally and physically. Because of this, the CSI running program instills an unmatched set of character traits in its runners which I am incredibly grateful for; commitment, consistency, friendship, and resilience. The training makes successful runners through more than just endless miles.”

Cade Smith: “The Cross Country and Track program at CSI is important to me because it feels like they’re my second family. We have a great team chemistry that is important to our success whether if we’re racing or not. Without this program and the people involved with the distance program at CSI, I don’t know where I would be. It has a special place in my heart.”
Thank You CSI Foundation Community Donors

Your donations make a significant difference to a CSI Student. When you give the gift of a scholarship, you are not only supporting our students financially but also changing the future for the students and their entire families. The generous donations acknowledged in this report were made between July 1, 2020 and June 30, 2021. Thank you for making the choice to help our CSI Eagles in the past.

What is Your Legacy?

Planned giving that impacts student success at the College of Southern Idaho

Making a planned gift is a great way to show your support and appreciation for the College of Southern Idaho (CSI) and its mission while accommodating your own personal, financial, estate-planning, and philanthropic goals. With planning, you may actually increase the size of your estate and/or reduce the tax burden on your heirs. Just as important, you will know that you have made a meaningful contribution to the College of Southern Idaho. Planned gifts can benefit your favorite scholarship or program at the College of Southern Idaho. Familiarize yourself with the various gift options and consult a tax professional to determine what option is best for you:

Wills

You can make a bequest or gift through your estate by including provisions in your will or living trust, or by naming College of Southern Idaho Foundation as a beneficiary of a retirement plan or life insurance policy. The amount left to the CSI Foundation can be expressed in a dollar amount or a percentage of the assets given. The benefits of making a bequest gift include the fact that donors do not have to part with any money until they pass, and do not owe any estate tax on the amount of the bequest.

Charitable Gift Annuities

A charitable gift annuity involves a contract agreement between you and the College of Southern Idaho Foundation where you agree to make a gift to the Foundation in the form of securities, real estate or personal property, and the Foundation, in return, agrees to pay you a fixed amount each year for the rest of your life. Deferred gift annuity annual payments start at a later time specified by the donor, and not when gift is received. The donor will receive a fixed annual income for life and avoid capital-gains tax, as well as an income-tax break on a portion of the earnings from an annuity; the exact amount depends on the donor’s age.

Real Estate & Stocks

A donation of appreciated real estate or stock can help increase tax benefits. The deduction for a donation of property to charity is equal to the fair market value of the donated property. When the donated property is a “gain” property, the donor does not have to recognize the gain on the donated property. These rules allow for the “doubling up,” so to speak of tax benefits: A charitable deduction, plus avoiding tax on the appreciation in value of the property. Shares of stock have to be held for more than one year and qualify for the “qualified appreciated stock” deduction.

For more information about planned giving please contact the CSI Foundation, foundation@csi.edu or contact your tax advisor for guidance.
The College of Southern Idaho completed the 2021 school year by hosting twelve separate commencement ceremonies over two days to accommodate for social distancing due to the COVID-19 pandemic. A total of 1,023 students graduated from the institution with a total of 947 degrees and 147 certificates earned.

Former CSI Rodeo team member and alum Braxten Nielsen was selected as this year’s commencement keynote speaker. In 2017, Nielsen was in a rodeo accident in Filer, Idaho. After a 6-hour surgery to repair his broken back, he was told that he was paralyzed from the waist down and was given a five percent chance of ever walking again. Determined to defy the odds, he made it his goal to walk out of the hospital. Two months later, his goal became reality. Nielsen is now a motivational speaker with a mission to instill a belief that a person can overcome obstacles and succeed in life through motivation, perseverance, and faith.
Your donations make a significant difference to a CSI Student. When you give the gift of a scholarship, you are not only supporting our students financially but also changing the future for the students and their entire families. The generous donations acknowledged in this report were made between July 1, 2020 and June 30, 2021. Thank you for making the choice to help our CSI Eagles in the past.

Asset management is an important function of the Foundation. It includes oversight of investments and a balancing of long-term strategies. Optimizing the annual dispersement of scholarship dollars while enhancing the value of core resources is critical.

Total amount of scholarships and grants awarded in the past five years.

Please contact the Foundation office to request a copy of the 2020-2021 audit.
