As a fifth generation citizen of this extraordinary Magic Valley, I have an acute sense of how it has changed over the years. I believe that the most fundamentally progressive change has been the establishment and growth of the College of Southern Idaho. The College is central to the educational, cultural and economic vitality of our region. I am pleased to serve as President of the CSI Foundation which has provided exemplary support to CSI students. For example, through the generosity of our extended community, the Foundation has been able to pay out more than one million dollars in scholarships in each of the last two years. Thank you.

The College of Southern Idaho continues to prosper even at a time when it faces economic challenges. The number of students has steadily increased, a twenty million dollar health science building is being put into service, and we receive on-going support from friends and neighbors in our region. As you are able to see in this report of the Foundation, the scholarship disbursements by the Foundation grows yearly. In order to sustain the presence of the College in its many endeavors, continued vitality of the Foundation is critical. Thank you for your past support. We ask you to consider additional support for CSI’s future students.
Donors and Students

The Estate of Mary W. Priebe

Miss Mary Priebe was born in Twin Falls on September 15, 1915 to Walter R. and Marie L. Priebe. Walter Priebe was a leader in the early aquaculture business and also owned a jewelry store which later became Sterling Jewelry. The CSI fish hatchery in Rock Creek Canyon is known as the Walter R. Priebe Hatchery.

Mary graduated from Twin Falls High School in 1933 and enrolled in Albion Normal School and received her teaching degree in 1935. Mary taught school for a while in the Magic Valley and then attended the University of Wyoming completing her B. A. degree. During World War II, Mary enlisted in the Red Cross and spent several years in Italy and England. After the war she taught school in Florence, Italy and also had the opportunity to travel to various places in Europe.

Mary returned to the states and moved to Seattle where she taught elementary grades for many years. She obtained a Master’s Degree in Library Science and also spent part of her career as a school librarian. When she was 65 she was told by the Seattle School District that she had to retire. She didn’t agree. She went to court, won, and continued to teach until about the age of 72!

Over the years Mary traveled extensively, especially in Europe, and had many friends including Edith Robertson and Harriet Denton here in Twin Falls. Mary chose to honor her father through her estate with the establishment of a scholarship for students in aquaculture at the College of Southern Idaho.

The Estate of Wesley Williams

Wesley Wayne Williams, born on November 4, 1931 in Twin Falls, was known as “Gus” to his many friends. Gus attended Twin Falls High School where he graduated in 1949. Shortly thereafter he entered the United States Air Force Reserve where he served as an aircraft mechanic until being honorably discharged in 1959. Gus went on to work faithfully for Amalgamated Sugar in Twin Falls holding positions of varied responsibilities over the years before he retired from the sugar refining business.

From an early age, Gus loved aeronautics and airplanes. He was a skilled mechanic and maintained a pilot’s license. He was the founder of Magic Valley Aero Modeler’s. He was a dedicated and adept builder and flyer of model aircraft and especially liked working with the youth in the club.

Gus was taught by his parents to be frugal. He always lived within his means and lived a life of service. When he passed away in 2008, he remembered the youth of our area with gifts to both the CSI Foundation and the Idaho Youth Ranch. Gus lived his life as a great Idahoan and his legacy will live on by helping others.

Natasha Bortz - Scholarship Recipient

I chose to attend CSI for my first two years of college because I had heard about the great student-teacher ratios. I wanted to make a sound economic decision with my limited funds, and I wasn’t quite yet ready to strike out on my own. Both years, I received the Bordewick Honors Scholarship and the Laura Moore Cunningham Scholarship. I also qualified for the Idaho Promise B scholarship. The generous financial assistance from the CSI Foundation has helped me with the financial stresses of college life. I have been able to focus on my classes, not worry about current educational debt, and save for my future education. I am majoring in Bilingual Elementary Education, hoping to teach ESL (English as a second language). I have been impressed with the quality of my education and the caring instructors I have had at CSI.
The CSI Foundation manages its assets in order to achieve two general objectives:

1. To generate funding for scholarships at the highest level reasonably possible and

2. Manage the risk of the underlying investments to preserve capital and achieve a reasonable investment return.

Please contact the Foundation office to request a copy of the 2008-2009 audit.

Financial planning for students should begin at least 6 to 8 months prior to the CSI Fall 2010 semester.

FAFSA and CSI Scholarship applications are to be submitted online by March 1, 2010.

http://www.fafsa.ed.gov/ and https://www.csi.edu/forms/students_forms/scholarship/reqs.asp
Several years ago when DeOnne F. Smith began contemplating the possibility of retirement from teaching at CSI, she was certain about one thing that she desired to do.

During her tenure as a professor in the Office Technology Department, many of her students were single parents. She came to admire those people—not only for the challenges they faced but also for their success in overcoming them. DeOnne had a close relationship with those students since she herself had faced the same situation in her life at one time. DeOnne knew firsthand what they were confronting.

It became apparent to DeOnne that she needed to make available a scholarship for returning second-year single parents in the then Office Technology Department. Since the onset of the scholarship, the Office Technology Department is no longer, so changes were made in the requirements of scholarship recipients.

DeOnne says “Knowing that I have helped to provide a way for many students to complete their chosen programs at CSI is my opportunity to give back to CSI—in a small measure—for all it has given to me and the Magic Valley area.”

Celebrating Our 25th Anniversary

The check of $10,362,254 shown above represents the amount of money that the CSI Foundation has awarded in scholarships for CSI students since the Foundation was established 25 years ago. At the March 2009 CSI Foundation Board meeting a celebration was held in honor of the Foundation’s 25th Anniversary. Many past Foundation Presidents and Board members were in attendance as well as present CSI students Sanaroth Oum and Jim Blasius. Former CSI student Dr. Caroline “Smitty” Faure, now a professor at Idaho State University gave an exhilarating speech to the audience of how CSI helped her choose a career pathway. Foundation Board members Deanna DalSoglio and Anna Scholes did the honor of cutting the 25th Anniversary cake.
Raising the paddle for scholarships!

The 2009 CSI Foundation Black and Gold Ball was a huge success thanks to the generosity of the people of the Magic Valley. Held on April 4, 2009, at the scenic Canyon Crest Dining and Event Center, guests were treated to a lively social hour and a wonderful dinner donated by Clear Springs Foods and Falls Brand Independent Meat. Master of Ceremony, The Honorable Roger Burdick, kept the crowd entertained with his wit and brilliance.

In an economic time when everyone had a very good reason to keep their bidding paddle low this group did anything but! When it came time to raise the paddle for scholarships they all held their heads and their paddles high! A total of $78,647 was raised at the event to support scholarships and programs for the students at the College of Southern Idaho. The evening concluded with dancing to the melodious CSI Jazz Band.

A big thank you to all of the sponsors of this fabulous event. We hope to see you at the next CSI Foundation Black and Gold Ball to be held on Saturday, March 27, 2010.

A lunch with a tour.

Below Honorary Campaign Chair First Lady Lori Otter speaks to the CSI Foundation Board along with BSU, ISU and U of I representatives and the citizens of Magic Valley regarding the importance of the higher education relationships with the College of Southern Idaho. The luncheon was concluded with an onsite tour of the new CSI Health Science building.
Community Support

Service clubs in the state of Idaho and especially in the Magic Valley believe in supporting the students at the College of Southern Idaho. The Rotary, Lions, Kiwanis, and Optimist Clubs, just to name a few, all provide scholarships to students on an individual basis to attend CSI.

The Rotary Clubs of the Magic Valley have all found creative and innovative ways to support education. The Twin Falls Rotary Club has provided over $49,425 in scholarships since the Foundation’s inception. While their main priority is to fund childcare scholarships for students at CSI, they also designate a significant portion of the donations from their very successful “Death by Chocolate” fundraiser to the Culinary Arts students at CSI. Twin Falls Rotary Club also challenged their membership to create the “Rotary Christmas Scholarship Fund.” They encourage folks to make a donation to this fund at Christmas time in honor of a friend or family member. It is a great way to give the gift of an education!

The Blue Lakes Rotary Club held a series of fundraising events in order to establish an endowment to fund scholarships at CSI. The endowment has now grown to over $14,000 and will provide support to those students who exhibit the tenants of Rotary. The Rotary Club of Jerome has also given over $11,000 to support students from their area as they attend CSI. All in all, the Rotary Clubs of Idaho have supported students by donating almost $82,000 to educational support.

The Lions, Kiwanis, and Optimist Clubs of the Magic Valley have also greatly supported students at the College of Southern Idaho. By giving scholarship dollars directly to the students, they help to offset the cost of tuition, books, and childcare for students struggling to make ends meet while they obtain their education. These investments change not only the lives of our students but of the students’ families as well.

Havilah Lyon - Scholarship Recipient

At 28 years old, I am considered a nontraditional student, and have spent most of my adult life working full time. So when I first considered going back to school, my main concern was how I was going to pay for tuition and books. You can imagine how excited and grateful I was when I found out that I was the recipient of not just one but two scholarships: The W.L. and Frieda Reiher Estate Scholarship and the Bordewick Honors Scholarship. I am divorced and doing my best to support myself by working two part-time jobs, but without these scholarships, I would never be able to make it financially. So thank you, from the bottom of my heart, for your support of my dream. It means the world to me.

“Expanding Access” to CSI Students...

- Through Scholarships for all of CSI’s academic and professional-technical programs.
- Through development of the CSI’s Southern Idaho Higher Education Center- supporting CSI transfer students toward four-year, Master’s and Doctoral degrees through Idaho universities.
- Through program development of CSI Agriculture to enhance economic growth for Magic Valley families involved in Magic Valley’s agricultural industry.

The CSI Foundation’s campaign, “Building Our Futures Together”, has been soliciting support for students for a little more than a year. In that time, we have raised substantial funding for Scholarships, the Southern Idaho Higher Education Center, and Agricultural programs. Farsighted friends of the College have established endowments. Other generous contributors have signed pledges extending out for as much as five years. The campaign is, at its core, for the purpose of expanding access to education and training through our communities’ College. The CSI Foundation provides the conduit for people to expand student access to the College and to promote relationships and partnerships between the College and the communities it serves.

**Alex Yeggy - Scholarship Recipient**

As a senior in high school, the thought of dealing with finances for college overwhelmed me. Many of my friends were planning on going to big schools with big expenses, and I wasn’t sure how I was going to afford it. However, seeing the fantastic opportunity that is CSI, I decided to focus on my education close to home. I was thrilled to find out that the scholarships I received through the CSI Foundation would completely cover all tuition-related expenses. This has allowed me to focus on saving money for my future and my continued education. People originally made remarks that I was cheating myself by going to a community college, but the courses at CSI have challenged me and caused me to learn more about myself and the world around me. I have no regrets whatsoever about my choice to attend CSI. I am currently majoring in business with an ultimate goal of continuing my education at Boise State University and becoming a Certified Public Accountant. CSI was a fantastic choice to begin my education, and I am extremely grateful for all the help the Foundation has given me.
Memorial Gifts

The College of Southern Idaho Foundation received donations in memory of the following people between July 1, 2008 and June 30, 2009. We are extremely grateful to the friends and family members who chose to remember the students at CSI during very difficult times.
