The theme of this year’s report “Infinite Connections” is not only a look back at the incredible year that the CSI Foundation, Inc. and the College of Southern Idaho shared but also a look forward to a great future.

And, the possibilities are endless because of the generosity of the donors listed in this report. The Foundation and the College celebrated the success of the “Building Our Futures Together” Major Gifts Campaign that produced over $10 million in scholarship support for students at the College of Southern Idaho. We asked you to show your financial support in raising funds for students and you did so exuberantly. We are deeply appreciative of the donations received over the past year.

The College of Southern Idaho is now the higher institution of choice for nearly 9,000 students. As you can see in this report, the CSI Foundation was able to maintain the amount of funds distributed for scholarships this past year due to prudent and careful management of the resource base of the Foundation. But the need for scholarships continues to grow with the rise of enrollment and, now more than ever, increased scholarship funding is needed to support current and future students at the College of Southern Idaho.

We salute and thank all of our donors over the past 26 years and, we ask that you continue to support the students at the College of Southern Idaho. CSI students, future leaders of our community and our state, are grateful for the scholarships that they receive from the CSI Foundation. Please take a moment to read their stories in this report to see how your donation has made a difference in some of our students’ lives. The future for students at the College of Southern Idaho will be filled with endless possibilities with your continued support. Thank you.

Adrian Boer
CSI Foundation President

Gerald L. Beck
CSI President
CSI’s Vibrancy

Megan Harlan
Kuna, Elementary Education

CSI is one amazing place. It is a place of great opportunities, growth, and friendships. I have been at CSI for 3 years, and will be graduating in the spring. CSI has become my home and leaving will be bittersweet. I have been able to be involved in the honors program for 2 years, and Ambassadors and Chi Alpha for 3 years. Without my scholarship, I would not be able to do all the things that I have done in my 3 wonderful years at CSI. I would like to thank all the donors who gave scholarships allowing this to happen.

Katelynn Hulsey
Kimberly, Elementary Education

I graduated from Kimberly so it was a good way to “Stay near, Go far” for my first couple years of school. I am now getting ready to transfer to BSU but I am very grateful for my experience at CSI. I love the small community. I could not express how grateful I am to have received all the scholarships. It was awesome to go home to my parents and tell them I had school all taken care of with money left over.

Stephen Boateng
Kumasi, Ghana
Pre-Pharmacy

This is my second year in CSI. I am an international student and I came to CSI because of how affordable it is and the personal interaction with instructors due to the small class sizes. CSI means a lot to me. I am a pharmacy major and taking my pre-pharmacy classes is a good stepping stone for me in my pharmacy career. Getting a Foundation Scholarship has helped me a lot by paying for my books and helping to reduce the cost of tuition for me. I am more than grateful for this scholarship. Thank you so much and it’s an honor to have you be part of my success story now and some time to come.

David Tesucher
Jerome, Electrical Engineering

In a down economy, I was unsure of my future and I didn’t know where I would end up. I didn’t want to let life pass me by, so I made one of the best decisions in my life, I enrolled at the College of Southern Idaho. I am a student, Regional President of the Rocky Mountain Cascade Region of Phi Theta Kappa, and a friend to everyone. The opportunities that I experience can truly take me anywhere that I put my mind to. Because of the College of Southern Idaho, I know I can and I will make a difference. The scholarships made my education possible.

CSI’s Vibrancy
On August 17, 2010, the College of Southern Idaho and the CSI Foundation, Inc. celebrated the success of the “Building Our Futures Together” Major Gifts Campaign by revealing that the 2-year campaign process had raised $10,269,121 primarily for scholarships for students attending CSI. The final tally well exceeded the original estimate of the campaign at $7-9 million.

Over 1,950 gifts were received during the campaign which kicked off in January of 2009. The first donors to step forward were the employees at the College of Southern Idaho. During this first phase of the campaign, they donated over $100,000 which was the largest amount ever given during a CSI employee campaign. This employee division was given enthusiastic leadership by Dr. Mark Sugden and Dr. Jim Gentry, Co-chairs.

The campaign then entered its general population phase. There were over 400 volunteers involved in helping to tell the story of the campaign and CSI including C. Alan Horner, Campaign Chair, Tom Ashenbrener, Major Gifts Campaign Committee Chair, Todd Blass, Lead Gifts Chair, and Robert E. Williams, III, Advanced Gifts Chair.

The final phase consisted of a phone mail campaign conducted by the students at the College of Southern Idaho. Led by CSI Student Body President Sheree Hagan, students called for two consecutive weeks to raise awareness regarding scholarships at CSI in our community.

Students showed their appreciation for the great generosity of people in the Magic Valley by creating a scholarship out of student funds. It will help to stimulate leadership initiatives at CSI. Future students from all walks of life will be able to attend the College of Southern Idaho because someone who believes in education provided funding for scholarships. This scholarship is just one of the lasting legacies of the campaign.

The College as well as the Foundation and campaign leadership thank our many volunteers and donors for the incredible generosity of their time and treasures. Your support is greatly appreciated especially by the grateful students at the College of Southern Idaho. Your gifts will not only change the student’s life but also the lives of their families and communities as well.
I have always had a desire to attend college. However, I knew that my parents could never afford to send me. With the help of Foundation scholarships, I am able to pursue my dreams of a degree without financial stress. I am even able to participate in clubs, student government, and honors programs. The CSI Foundation really has a heart for the students and works so hard to raise funds for us! This summer, I was privileged to help coordinate a phone-a-thon to raise scholarship money. It was incredible how passionate everyone was about providing opportunities to students. Student Government caught that vibe and made a donation of $10,000 to the Foundation shortly after. The Foundation’s passion to help students is contagious!
Foundation Resources

There has been an 17% increase in Foundation Assets from 2006 to 2010. The growth is due to a combination of investment return and new donations. The larger the base the more scholarships that can be generated while preserving the corpus of the gifts and the enduring vision of donors.

The English, Languages, and Philosophy department created the Outstanding English Major Scholarship Program in 2007 so that we might recognize those English students who have distinguished themselves here at the College of Southern Idaho. In order to acknowledge the accomplishments of as many of our majors as possible, we created two scholarships: The Award of Excellence in English Studies and The English Prize. Department faculty donate yearly to fund the scholarships. Since the scholarship program began, we have collected over $3,800.00 which we have used to create scholarships for fourteen different students. The amount of the awards varies depending on the number of qualified applicants and the greatest need, but they have ranged from $50.00 for the Award of Excellence to $500.00 for the English Prize.

We created this scholarship program in order to show our support for those students whose work sets them apart from others. To be eligible for consideration, a student must first be nominated by an English Department faculty member. Nominees are then invited to submit a letter of application and two examples of their work in a portfolio for consideration. This portfolio allows the entire English Department to become acquainted with the nominees before voting on who should receive the top prize. The Award of Excellence scholarships are awarded based on individual accomplishments while the English Prize is awarded to the student who shows the most promise. Awards are presented by the English Department Chair, Whitney Smith, with faculty in attendance, the last week in April. We are very proud of our majors and were able to honor six last year: five with the Award of Excellence certificates and scholarships and one with the English Prize.
Almost forty years ago he had a dream that talented high school kids could compete before a live audience for scholarships. As a high school drop-out Danny Marona came to the realization how very difficult the pursuit of a career in the performing arts (or any career for that matter) is without the benefit of a proper education. Danny simply puts it like this: “Without a real education I was forced to rely on the ‘luck factor’ way too much of the time. I think anyone with even a modicum of common sense knows that sheer luck is not enough to perpetuate a real career. You need a meaningful education.”

Marona says the idea for his scholarship fund ignited when he went to watch his ninth grade music teacher (Marilyn Reedy) perform a piano concerto in front of a live audience as part of her Master’s thesis for her degree in piano performance. Says Danny, “I started thinking how neat it would be if high school performing arts students could earn college scholarships the same way Mrs. Reedy earned her Master’s degree.”

His dream came to fruition with the creation of an independent scholarship fund and then the Danny Marona Performing Arts Endowment established at the CSI Foundation. Its purpose is to provide scholarships to students in music, communications, forensics and theater. It is a way that the Marona Scholarship Board of Directors and others can promote the performing arts and the cultural awareness they stimulate. As he reminds us, “Some build bridges while others build cities and towns; but the ones who make life really worth living are the singers, the actors, and the clowns.”

Ken and Lillian Quilici

Ken and Lilly Quilici believed in giving back to their community. They both devoted many hours to community service and were extremely generous with their time and resources to numerous charities.

In 1999, the Quilici’s approached the CSI Foundation about partnering on a gift that would provide substantial financial support for students attending the College of Southern Idaho. Ken and Lilly believed in hard work and together they built a thriving rental business in Twin Falls. Lilly served as the financial officer and Ken as general manager of Quilici Rentals. In 2000, they gifted their business which included more than 71 rental units to the College of Southern Idaho Foundation, Inc. through the Quilici Charitable Remainder Trust. The Foundation managed the rental properties and Ken and Lilly received income from the management of the trust. Eventually after the passing of Lilly in 2005 and then Ken in 2008, the rental units were liquidated and the funds were used to create the Ken and Lilly Quilici Memorial Endowment.

Many of their renters considered the Quilici’s as their friends because of the way they were treated by Ken and Lilly. The students at the College of Southern Idaho also consider the Quilici’s to be extremely generous benefactors. During the fall semester of 2010, 69 students at the College of Southern Idaho received scholarships from this fund. What a fitting testament to lives well lived.

New Endowments Established 2009-2010

William R. Hoops, Margie R. Hoops and Angela R. Hoops Scholarship Endowment

Angela’s untimely departure to heavens nearer presence left memories and a legacy. After graduating from Filer High School, she obtained an Associate of Arts degree from the College of Southern Idaho. She received a degree in Psychology from Brigham Young University and a Master’s degree in counseling from Idaho State University. Counseling at the high school level was Angela’s calling. Her professional life was dedicated to the encouragement and development of students who would then be able to go to College. Countless students from Buhl High School where Angie was Counselor, praise her for her tough love, encouragement and boundless energy. Fundamentally, Angie was a teacher. She taught students to plan and then implement that plan with sound decisions. The purpose of the Endowment is to provide scholarship support for CSI students enrolled in Trade and Industry, Criminal Justice, Pre-engineering or a Career Counseling program. Margie Hoops, who endowed this scholarship, believes that this is an on-going way to encourage people to better their lives through higher education that was so much a part of Angela’s life.
I often get questions from some of my clients about the best approach to higher education. Some of them find it hard to believe that I attended a community college in Idaho prior to graduating summa cum laude from Hood College in Frederick, Maryland then cum laude from the University of Baltimore School of Law. I suggest the same route to them—attend a two-year school before attempting a four-year university. I truly believe without my opportunity to learn and grow at CSI, the snapshot of where I am today would look very different.

It was through the encouragement and guidance of many faculty and staff members at CSI that I found the courage to venture off to a different part of the country. Through CSI’s Honors Program I was able to obtain a scholarship to a private college in Maryland. Without this I would not have been able to attend Hood College and excel in the areas where CSI had provided such a strong foundation. My A.A. from CSI gave me the knowledge and self-confidence to be a competitive student even in an atmosphere that was totally out of my comfort zone.

My first summer in Maryland I won a competitive award to intern at the Department of Defense’s Public Affairs Research and Analysis office at the Pentagon in Washington, D.C. Immediately after graduating from Hood I was working as a reporter for a daily newspaper after I was given the Ester E. Shaw Award for excellence in journalism. Making the decision to go to law school was difficult but I knew it was inevitable. I graduated a semester early from law school because I was able to study abroad in the Middle East for a summer and was given extra credits for being a teaching assistant for first year students. After passing the Maryland Bar and being sworn in as an attorney in 2009 my career has continued to expand.

I have been advocating as a victim’s rights attorney for over a year now at Maryland Crime Victim’s Resource Center, Inc. (MCVRC). Here, I have the opportunity to represent victims of crime regarding privacy issues and the rights to be informed, present and heard regarding their criminal case. While at MCVRC, I developed a passion for education of victim’s rights, particularly in the area of law enforcement education. I have now become an Enhanced Instructor through the Maryland State Police and Corrections Training Commission where I teach victim’s rights, liability of law enforcement and special issues regarding sexual assault and violent crimes to officers throughout Maryland.

Many people are shocked and impressed to hear that I have accomplished all this at 26-years-old. When they ask how I did it, the answer is quite simple—I started at a place where I was supported, where the people that surrounded me cared enough to push and challenge me to attempt new heights, a place where I was believed in enough to believe in myself no matter the obstacles I faced—I started at CSI.

Thank You CSI Foundation Donors!

Your donations make a significant difference to a CSI student. When you give the gift of a scholarship, you are not only supporting our students financially but also changing the future for the student and their entire families. Your generous donations have helped past, present and future CSI students creating community connections that will be forever. Thank you for helping a CSI student!

Danielle Essma
Twin Falls, Liberal Arts

The College of Southern Idaho is like home to me. I grew up in Twin Falls right across the street from campus. One could say I was born to be an Eagle! After experiencing a year abroad in Spain and one year at school in Hawaii I am proud to say that I go to CSI! This is such a great school with such a dynamic network of faculty that are so talented and helpful. The friendly student body really is unique and wonderful. For me the decision to attend CSI was simple because I love Idaho and I love the Golden Eagles! I am sincerely thankful and grateful for the opportunity to be part of the Honors Program which is such a great group of intelligent individuals. I would like to thank the CSI Foundation for the support they give to the program and to individual students like me. From what I have been given, I will learn, grow and give back to this beautiful world.

Josh Bridges  
Filer, English  
I came to CSI as a step to a four-year university. I am a writer, so whatever I can learn about my craft can only help me and a university is a step to doing that. Coming from a poverty-stricken family, I didn’t have much of a choice as far as college went, despite having excellent grades and graduating with a GED as valedictorian. Without my financial aid and scholarships, even CSI would have been out of the question, so I am very grateful for the opportunity. Thank you.

Mayra Lopez  
Aberdeen, Biology Health Care  
Attending CSI was one of the best decisions I could have ever made. It has helped me to become successful both as a student and as a person. I have received an excellent quality education which is very affordable and the scholarships which I have received motivate me to work hard and to never give up because there are people who believe in me.
Ana Castillo
Pocatello, Biology Health Care

My first year in college was a wonderful experience. I met a lot of people and enjoyed being involved in many activities. I am very glad that I decided to go to CSI. I come from Pocatello and had Idaho State University at my door step but I wanted to explore and meet new people. I first planned going to Boise State University but when I went on my tour I became afraid of the big city. A couple months later I came with a friend to take a tour of the College of Southern Idaho. Even before we began our tour, it felt like home. The more information they gave me the more I liked it. After the tour I decided this is where I wanted to be and now I live in Twin Falls. I have enjoyed all my experiences at CSI and hope to have many more. My parents have not been able to help me financially. I am a full time student, work part time, and a student athlete. I wanted to move to Twin Falls so I had to save money. The scholarship I received has helped pay some of my college expenses and allows me to work less and focus on my school work and studies. Thank You!

Jeremy Bridges
Filer, Digital Media

I came to CSI originally for just two courses because I wanted to learn Photoshop and HTML for fun. I had a friend who was taking HTML and another one who convinced me to go. Then after doing those courses found out I could make a major of it. Since I was home-schooled I found out I had to get my GED first. That was easy and I graduated with honors. CSI has since basically been my home for the last year. I started with 17 credits and got a 4.0 that semester. That led me to apply myself just as much the next semesters. I found Film extremely interesting and have picked up a lot since my first Digital Media class. Coming from a big family though we can use whatever scholarships we can get as we never had much money, even when I was able to work. Now with seven of us in college I greatly appreciate all the scholarships I’ve been given. Because of these scholarships I can give full attention to my studies this semester with 19 credits and not having to work. Thank You.
I decided to attend The College of Southern Idaho because I wanted to get a taste of college life before I went to a university. I was given the chance to join the Honors Program which has given me many opportunities, both academically and financially. Deciding to go to CSI is one of the best decisions I have made.
When it came time to take that next step in my education and in life I knew that the college I chose would have a big influence on both. Like any naive adolescent I had expected to continue my education at College of Idaho, Boise State, or even a few esteemed out of state colleges, but when the time came to foot the bill for my college tuition and books the expression “beggars can’t be choosers” hit me hard in the face, along with the conundrum of what college I was going to attend in the fall. I came from a VERY poor family and I could not afford any of the prestigious colleges of my choice, but I didn’t want my education to suffer due to my lack of funds, and that is where CSI came in. CSI may not have all the publicity or tout that BSU does, but it offers just as good of a quality education, if not more so. Most colleges nickel and dime you for things like parking permits and printing paper, but CSI offers them to you completely free along with an array of free student activities going on every day. Probably one of the best things about CSI is its vast array of scholarships, without them CSI would be just another one of those colleges that I can only dream about.

The CSI Foundation Board of Directors would like to thank the members of our communities who have made donations during this past year. Although there have been economic challenges for our valley and especially for our students, our communities continued to find ways to support the students with scholarships. We are deeply appreciative.
To inquire about investing in the students at CSI please contact the College of Southern Idaho Foundation, Inc.
