Articulation Agreement between Boise State University and the College of Southern Idaho

This Agreement is effective as of the date of final signature below and shall be in effect for three (3) years or until earlier terminated by one of the parties. Either party may cancel this Agreement upon twenty (20) days’ advance written notice to the other party; provided, however, that any student who has already enrolled at Boise State University shall be entitled to the benefit of this Agreement.

Boise State University
Regional Accreditation
Boise State University is regionally accredited by The Northwest Commission on Colleges and Universities.

Bachelor of Science Degree Curriculum
The 120-credit Bachelor of Science Degree Curriculum satisfies all general education requirements (Foundation Studies Program) and all professional curricular requirements. The student may earn the Bachelor of Science Degree by completing all requirements in the four-year curriculum or by completing all requirements in the Imaging Sciences Program.

College of Southern Idaho
Regional Accreditation
The College of Southern Idaho is regionally accredited by The Northwest Commission on Colleges and Universities.

Associate of Applied Science Degree Curriculum
The 72 semester credit, Associate of Applied Science Degree Curriculum satisfies all general education requirements and all professional curricular requirements.

Boise State University Department of Radiologic Sciences
Imaging Sciences Program
The Degree Completion Program allows students to enroll once they have met the following criteria:
- Successfully completed an Associate Degree (AS, AAS, AA) in the field of imaging sciences
- Earned a medical imaging credential through the American Registry of Radiologic Technologists (ARRT) or equivalent, such as a sonography credential through the ARDMS
- Admitted to Boise State University and the Imaging Sciences Program

The Imaging Sciences Program is designed for credentialed medical imaging professionals who want to earn a Bachelor of Science Degree in Imaging Sciences. The student is required to complete 33 credits (11 courses) plus any missing prerequisite or university foundations courses; each of the courses is available online. Because the student is required to be a credentialed medical imaging professional as a pre-requisite for the program, there are no clinical courses in the Imaging Sciences Program.
Courses are delivered via BlackBoard, which is a web-based, course-management system designed to allow students and faculty to participate in classes delivered online. BlackBoard enables instructors to provide students with course materials, discussion boards, virtual chat, live audio-visual discussions, online quizzes, an academic resource center and more.

Online courses usually are more time-intensive than typical face-to-face courses. Students will be required to do a significant amount of reading, online posting, writing papers and other online activities; therefore, the student must be motivated and willing to allocate a considerable amount of time for each course. For this reason, it is not recommended that students working full-time take more than two or three courses per semester.

Students who earn an Associate of Applied Science Degree must also satisfy the university Foundation Studies Program (university general core curriculum) requirements. The student may complete each of the requirements before transferring to Boise State University or concurrently while in the Imaging Sciences program.

Because graduates from the Radiologic Technology Program of the College of Southern Idaho earn an Associate of Applied Science Degree and are eligible to take the ARRT national credentialing exam, CSI graduates should meet the first two admission requirements. Once the student has passed the necessary examinations to earn the credential and has been admitted to Boise State University, the student may apply to the Department of Radiologic Sciences Imaging Sciences Bachelor’s Degree Program.

If the student earns an Associate of Science Degree or an Associate of Arts Degree from CSI, as well as the Associate of Applied Science Degree in Radiologic Technology, the student will only have to complete the programmatic prerequisites and the 33 credits (HLTHST, HRM, and IMGSCI prefixed courses as listed below) required for Associate of Science Degree graduates.

Requirements to Earn a Bachelor of Science Degree in Imaging Sciences from Boise State University

Requirements to be completed at The College of Southern Idaho

➤ Associate of Applied Science Degree in Radiologic Science
➤ At least 65 semester credits

Requirements to be completed at the College of Southern Idaho or Boise State University

➤ Foundations Studies Program
  o Please see equivalency table above.

Professional examinations to be completed through the ARRT or other Imaging Accreditation Body

➤ Examinations required to earn credential in Imaging Sciences

Requirements to be completed, online, through Boise State University

➤ Professional Courses
  o HLTHST 400 Interprofessional Capstone, 1 credit
  o HLTHST 215 Introduction to Health Informatics, 3 credits
  o HLTHST 304 Public Health, 3 credits
  o HLTHST 314 Health Law and Ethics, 3 credits
  o HLTHST 382 Research Methods in Health, 3 credits
  o HRM 305 Human Resource Management, 3 credits
  o IMGSCI 302 Civic Engagement, Ethics and Global Diversity, 3 credits
  o IMGSCI 304 Professionalism and Research in Radiologic Sciences, 1 credit
  o IMGSCI 308 Advanced Digital Imaging, 2 credits
  o IMGSCI 312 Information Technology for Imaging Professionals, 1 credits
  o IMGSCI 402 Comprehensive Analysis on Radiation Protection, 2 credit
  o IMGSCI 404 Study of Diseases in Medical Imaging, 3 credits
  o IMGSCI 408 Sectional Anatomy in Medical Imaging, 3 credits
  o IMGSCI 412 Preventative Care and Patient Advocacy in Medical Imaging, 2 credits

➤ Credit for Prior Learning
  o Students will receive 25 credits for prior learning based upon passing credentialing examinations. After successfully completing at least 12 credits at Boise State University, the student can request the credits for prior learning be applied to their transcript and pay the necessary fee (currently $50). The adviser will complete the necessary university forms to process the paperwork for these 25 credits.

After successfully completing each of the above stated requirements, if the student is otherwise in good standing, the student will be awarded a Bachelor of Science Degree in Imaging Sciences from Boise State University.

Use of Marks: Neither party shall, prior to, in the course of, or after performance under this Agreement, use the other party’s name, logos, or trademarks in any advertising or promotional media, including press releases, without the prior written consent of the other party.
IN WITNESS THEREOF, the parties have executed this Agreement hereto, as of the last date written below:

Leslie Kendrick Chair  
Department of Radiologic Sciences  
Boise State University
