Kenworth Sales Company Donates New Training Engine to CSI Diesel Technology: Truck Program

Release date: 01/07/20

TWIN FALLS – The College of Southern Idaho Diesel Technology: Truck Program is grateful to Kenworth Sales Company, for donating a new training engine with a value of about $30,000. The new engine will allow students to work with the latest and greatest technology while preparing to become Truck Technicians.

Since the inception of the CSI Diesel Technology: Truck Program in 2016, Kenworth Sales Company, has been a key industry training partner.

“Due to our partnership with Kenworth Sales Company, for the first time ever, CSI is able to offer training that is specific to Paccar. This benefits students at the college by appealing to a larger hiring base. It also allows the college to train technicians more specifically for employers. Kenworth Sales Company has been phenomenal to our students and we really appreciate it,” said Dust Holt, CSI Diesel Instructor.

The College of Southern Idaho would like to show sincere appreciation for this generous donation of modern equipment, which will help student growth in Diesel Technology.

Left to Right: Kory Lloyd (CSI Department Chair), Dustin Holt (CSI Diesel Instructor), Bill Pahl (Kenworth Sales Company District Manager), Barry Pate (CSI Instructional Dean), Les Anderson (Kenworth Sales Company Service Manager), Eddie Blunt (Kenworth Sales Company Shop Foreman), and Cody Campbell (CSI Lab Aid)
