Ambassadors:

This week the new members for ambassadors met on Thursday the 18th, and they talked about the retreat. They were going to take off to their retreat at 2:00 P.M today being Friday the 19th and they are coming back on Sunday. They all seemed very excited about the retreat, although a couple of them will not be able to make it to the retreat.” -Senator Dominiquez

Campus Recreation:

“Currently total active memberships are up to 1077. The REC center is really busy and the accounts aren't accurate because there are difficulties with getting everyone to check in. The computers are still going slowly. I don't have a lot to report because Scott has been gone and with his new baby girl.

Sing ups for upcoming intramurals are soccer and Volley ball. I want to try and get a senate team for both upcoming events. The 5 k runs sign up starts the 1st of October. Wii signup for boxing singles starts oct.7 and beach volleyball Wii team sports signups start the 7th of October. The Eagle Disc golf course has its grand opening October 18th. I fulfilled all my office hours this week and had went to the retreat where i thought we had all bonded quite well.” -Senator Johnson

Community Service Council

Diversity Council

“We had our meeting on Thursday and we discussed going for retreat. Majority of our members decided that the first retreat should be early next month.

So our advisor Silvia is going to get report to where we should go this is because we have two choices either Boise or Utah. We want to be out of Twin Falls and CSI.

Our advisor also talked about helping other clubs. This time we as diversity council we are willing to help other clubs financially as well as man power this is when they are setting up events here at the college.

I did not finish my office hours on Friday because I was having test and also preparing for the senate retreat.” -Senator Rono

Eagle Hall Council:

“The Eagle hall Council planning to organize an event called “rock the vote” for November elections. The main purpose of this event is to make residents more enthusiastic for the upcoming election. The Eagle Hall council is also planning to organize more events related to the elections. We are planning on having a movie night and watch “Hacking democracy”. And also planning to bring someone from the court house to register residents to vote. And planning to make different bulletin boards related to elections.

And as far as the hall activities and other activities concern, upper and lower A and C Halls going to have sundae bar ice cream get together on Wednesday in the activity center. And Upper D hall is planning to have a “Hop to it” event.” -Senator Leuke

Social Committee

Interclub

Outreach Centers:

“Tuesday I was able to find out that Arna will be the freshman senator over the outreach centers so we will be working together this year.

Today, I emailed my advisor Dr Jenny Davidson at the Blaine County campus along with Elaine Bryant at the North side campus to introduce myself and discuss a trip with Arna to their visit their campus and plan some events for them.

I would like to do a "feel good Friday" at the outreach centers, once a month. Whether it be one Friday a month at Burley, the following month in Hailey, and the following month in Hagerman.

Senator Johnson also suggested putting together a REC team for the outreach centers so that they could play an intramural sport. We thought if enough students sign up, we could plan a game on their campus, but if there's only enough for one team, we could shuttle them here one night so that they could play against other CSI students here on campus.”

-Senator Haggan

Program Board

Public Relations:

“Have been going out to all the radio stations to promote CSI events”
