ASCSI STUDENT SENATE Fall 2010

- This week we worked on the agenda. We created the list of participants for the Lane of Trees and will order the trees sometime after next week's meeting.
- Off Campus Centers:
 - We are planning the end of the fall semester and all of the spring semester events. Our Blaine County delegate contacted us with some ideas he has, and we have been brainstorming our own as well. We will have the next event decided by the meeting on Monday. We are thinking of some sort of performance, whether it is a speaker, a talent show, or a band. We are discussing what will be a realistic option that we can bring to the outreach centers and will also be entertaining for the students. We need to get back with our delegate to see what he came up with and decide which option would be the most rewarding to the students.
- Program Board:
 - Weekly Events: There are no Program Board Events for this week. Program Board, along with Triathlon Club, is sponsoring a Date/Movie Night Dec. 1. We will be showing Eclipse in the Rec. Center for this event; free for students with current ID and \$5.00 for general public. Breakfast with Santa is Dec. 11; we are still in need of bodies to help with that so if you are interested in helping please let me know.
- Public Relations:
 - At the radio stations this week, the topics included the Ski Swap that took place over the weekend, and the Turkey Trot taking place on Thanksgiving morning. Registration begins at 8:00 AM, and the race begins at 9:00 AM by the Taylor Building. Cost is \$25 for pre-registration and \$25 on the day of the race. We also discussed the Magic Mud Fine Arts annual ceramics and art show and sale. It's an incredible sale with a little bit of everything, and great gift options. This event will be taking place on Dec 2nd through December 4th in the Student Union Building.
- Sustainability:
 - Sustainability Council worked on the development of a poster that will be hung everywhere on campus to increase awareness about sustainability. We also have developed a survey for students and faculty to receive constructive

feedback on how we can improve the sustainability on campus.

- Here are the links for the survey:

 - A motion to approve the laminating grant if the Community Service Council denied it was approved during the last Senate meeting on November 15th. The Community Service Council did deny the grant so that money will be coming out of Senate's budget.

New Business

- Leadership Training:
 - It is important to recognize the one person in your life who has always been completely honest and real towards you.
 - As leaders, we need to start communicating in a real way. We need to stop filtering all of the good things that we think and start saying them out loud.
