Menu Design

You can customize the look and feel of your course menu by customizing the style and color of either text links or button links.

Follow these steps to customize the design of a course menu in Blackboard.

1. Click on **Customization** to open the sub-content area, and then click on **Style**.

2. Choose buttons or text. If choosing buttons, you will have the additional options of button type, button shape, and button color.

3. Scroll to the bottom and click the Submit button when finished.
